LOYOLA COLLEGE, MONTREAL

NOV. - DEC. 1958

Registration Reaches All-Time High

Football Returns to Loyola

Loyola Football Warriors returned to the gridiron this year by downing St. Patrick's College, Ottawa, 8-0 in their league opener. In defeating this tough Ottawa aggregation. Last year's league champions, the Warriors indicate that they will live up to the great tradition established by Warrior teams in the past. Although their offence lacked spark, they made it clear that their defensive unit was a power to be reckoned with.

Coach Ed Meagher has fashioned his squad around a strong line which boasts an average weight of 210 pounds. Included among the stalwarts of this front wall are Carl Pigeon and Dave and Mike Sears, sons of George Pigeon '28 and Russell Sears '31.

by

CARL OHLSON '59, President, L.C.A.A.

The backfield, although it has not yet shown much finesse, has the potential of becoming a formidable power. Backfielders George Bedard and Beauregard are capable of breaking loose at any time while ends John Roche and Leo Harris are better than average receivers for quarterback Mike Ferrie's passes. Beauregard, who has recently been moved up to quarterback slot to fill in for the injured Mike Ferrie, has a great name to live up to - Bob's brothers Bill and Gaston Beauregard were great Warrior quarterbacks of the past.

Due to the fact that football was discontinued because, among other reasons, there was a complete lack of support from both students and alumni alike, attendance at this year's games was of para-

Honors Courses Initiated in Arts Faculty High School Introduces Entrance Exams

The Office of the Dean, Reverend W.J. McDonnell, S.J., '36, reports that over six hundred students have been admitted to the faculties of Arts, Science and Commerce this year. Latest figures show that six hundred and thirty-three students are registered with the greatest number being in the Faculty of Science of which the Freshman class has had to be divided into two sections.

In the Extension Department of the College, nearly two hundred students have been registered in university courses leading to Baccalaureates in Science and Commerce. This continues the second year of operation for the Extension Department.

The third phase of registration at Loyola is in the High School which, this year, has five hundred and fifty students enrolled in its four years. Last summer it was announced by Reverend Kenneth C. Casey, S.J., '43, Principal of Loyola High School, that entrance exams would have to be written by students wishing to enter first high. It was felt that this was necessary due to the large number of boys desiring admission to the school. In this way, the high standards which are to be expected of a private school are able to be maintained. Of the two hundred students who wrote the entrance exams, there was only room for half. Therefore, approximately one hundred boys were accepted for first high. Loyola High School, like Loyola College, is now crowded to capacity.

Many Alumni will hearken back to the days when a holiday was declared to celebrate total enrollment of High School and College of five hundred. The expansion which has taken place over the years is proof positive that Loyola is on a path of steady progress. With the constant support of her alumni as well as industry and other friends of the College, Loyola will continue to grow, to educate and to serve "Ad Maiorem Dei Gloriam".

mount importance. This year, all home games were played at Trenholme Park and were scheduled so that they could easily be attended by all. Should a lack of support have been evidenced this year, consideration might again have been given to discontinuing football. However, that support was very much in evidence and we are happy to report that the Loyola Warriors emerged undefeated champions of the Ottawa - St. Lawrence Conference for 1958.

Alumni Ball Date Changed

JOE HART
Chairman

Due to unforeseen circumstances, the Alumni Ball which was scheduled to take place on December 5, 1958, at The Queen Elizabeth Hotel, has had to be postponed. The Ball will take place, however, on February 5, 1959, at the Ritz Carleton Hotel and music will still be provided by the superb orchestra of Eddie Alexander. A Mardi Gras theme will be used.

Recently President Fred D. McCaffrey announced the appointment of Joe Hart '37 as Chairman of this Alumni Social. The Son of one of Loyola's first graduates, Mr. Hart is the father of one of Loyola's present second year high students, Michael Hart, who is maintaining the family tradition. He is also President of Hart Motors and of Addington Enterprises Ltd., as well as being a Director of several other firms.

Mr. Hart is presently preparing a list of distinguished guests and patrons for the Ball, which he hopes to make one of the outstanding events of the Association to date. Even now, a great deal of interest is being shown in the Ball and many plans and surprises are already being made.

Further details will be sent to members in the near future.

Rector Receives High Honour

Very Reverend Father Rector receives the congratulations of President Sifton of the University of Manitoba, as the Academic hood is adjusted by the University Registrar.

OYSTER PARTY HUGE SUCCESS

One hundred and sixty-five Alumni and their friends met in the Loyola Cafeteria on October 10th for the Annual Alumni Oyster Party. Under the Chairmanship of Art Lapres, '42, the evening was, as usual, a great success, giving equal pleasure to Loyolans of all ages — as evidenced by these photos.

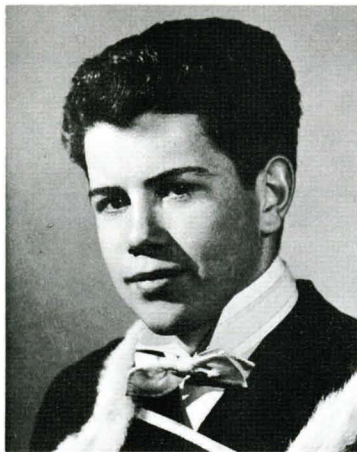

At a colorful and impressive ceremony held recently in Winnipeg, the University of Manitoba conferred an Honorary Doctor of Law Degree upon Very Reverend Gerald F. Lahey, S.J., Rector of Loyola College. Father Lahey also delivered the Convocation address.

Prior to his appointment as Rector of Loyola, Father Lahey had been Dean of Saint Paul's College, a College in Winnipeg affiliated with the University of Manitoba. He had held this post for eighteen years and had also been for many years a member of the Senate of the University. Father Lahey also holds a Ph.D. degree.

This high honor which was conferred upon Father Lahey was seen by many as a tribute to the Man and the College with which he was formerly associated and, of course, Father Lahey's happiness was shared by the College of which he is now Rector and by Loyola Alumni everywhere.

KENNETH F. SLOAN Wins Alumni Bursary

Kenneth F. Sloan, B.Sc., a 1958 graduate of Loyola College, has been announced as this year's winner of the Alumni Graduate Bursary. Mr. Sloan is presently studying mechanical engineering at McGill University and will graduate in 1960.

The Bursary of \$200.00 is awarded by a Committee representing both the Alumni Association and the College and is restricted to members of the current graduating class. It is intended to assist a deserving student to meet the high cost of further education.

The undergraduate bursary annually awarded by the Alumni Association to a student presently attending the College is presented again this year to Robert Coughlin of Junior Science.

"THE ALUMNUS" Enters the Archives

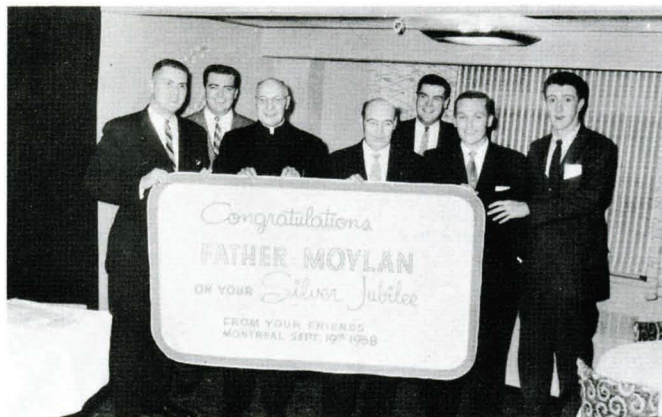

On October 1, 1958, "The Loyola Alumnus" was added to the Books and periodicals which are on file in the National Library of the Public Archives of Canada. — In addition, our newsletter has been granted by Ottawa the right to second class mailing privileges.

It is, no doubt, encouraging for Loyola Alumni to see these steps added to the progress which their Association has made in recent years. The end toward which we are working is a union of all former Loyola Students bound together by their desire not only to see Loyola grow and expand.

Fund Raising For Education

In a new book entitled "Fund Raising for Education," (Harper & Brothers, New York, 84) John A. Pollard, Vice President

Father Moylan Guest of Honor at Testimonial Dinner

of the Council for Financial Aid to Education, observes "the regular and intelligent support of its alumni and other friends is the best capital that any college or university can have." He continues "the heart of a good development program is nearly always a sound and productive annual giving program.

Loyola, through its Alumni Fund, is trying to provide its Alumni with an opportunity for showing their devotion to and support of their College. Not until her own Alumni are giving their unwavering and united support to Loyola, can she turn to strangers and request assistance.

With two months remaining in this year the Alumni Fund is \$2,000.00 short of its objective. If you have not yet contributed, now is the time, no matter what the amount, to be loyal to Loyola. Send your cheque today.

LOYOLA NEWS

Any alumnus interested in receiving the "Loyola News" may do so by writing to Mr. Michael Kelly, Editor-in-Chief, Loyola College, 7141 Sherbrooke St. W., Montreal. Subscription rates are \$1 per year.

Nearly 100 former students and personal friends gathered in the Persian Room of Ruby Foo's on September 19th to honor Reverend Thomas M. Moylan, S.J., at a testimonial dinner marking the twenty-fifth anniversary of his ordination. Though not an official function of the Alumni Association, many former Loyola students were present to add their good wishes to those which came from many parts of Canada and the United States.

Presented with an automatic wrist watch and a bronze plaque for his office, Father Moylan, in answer to the many glowing tributes which were paid him, said that he could only thank God for making it possible for him to be of any service he may have been to his fellow man. He said that he has always enjoyed his work at Loyola and could only pray that God would allow him to continue for many years to come.

Father Moylan, who was completely surprised by the size of the gathering, was further surprised when a vacancy at the head table was suddenly filled by his brother, Mr. Wm. Moylan, who flew in from Sturgeon Falls, Ontario, especially for the event.

After dinner Father Moylan shook hands with each guest and then sat back to contentedly puff on a king size cigar.

CLASS NEWS

1958

DON SAUVÉ now with C.N.R.

1957

GENE (BOSTON) GAGNON needs only one more year to obtain his MA in Chemical Engineering. He was a recent visitor to the Alumni office.
